Product : Super high-grade Chaga
Description : 94% extract of enzyme treated Chaga , 6% Red Koji
Net weight : 7g×30 capsules , 0.23g / capsule
Appearance : Brown powder
Water : 3.0g / 100g
Water solubility : 75%

Protein	6.7g / 100g	Dietary fiber	35.8g / 100g
Lipid	1.9g / 100g	Energy	258Kcal / 100g
Ash	16.9g / 100g	Sodium	94.0mg / 100g
Iron	7.98mg / 100g	β - Glucan	3.9g / 100g
Potassium	5.37g / 100g	Superoxide dismutase	2.4×10^4 unit / g
Magnesium	163mg / 100g	Betulinic acid	92.5ppm
Zinc	7.65mg / 100g	Betuline	181.7ppm
Manganese	17.7mg / 100g	Citrinin	Not detected
Glucide	35.7g / 100g		

Shelf life : 24 month

What is Chaga and Red Koji

Chaga is a kind of mushroom , which is parasitic on trunk of kind of birch tree such as white birch , and is said that it has rich active constituents which are hardly found in the other mushrooms .

Red Koji is sold in jars at Asian markets as a pasteurized wet aggregate , whole dried grains , or as a ground powder . It was a commonly used red food colouring in East Asian and Chinese cuisine prior to the discovery of chemical food colouring . It has also been used in Chinese herbal medicine .
